Dear Mr Graham,

Renewal of Accreditation for

Standards: ISO17025:2017 & ISO17020:2012
Project Number: 229070-03
Project Name: 2023 Reassessment
New Accr Exp Date: 30/06/2027

Following the re-assessment of your organisation, we are pleased to inform you that all improvement actions raised requiring evidence to be submitted to UKAS are now satisfactorily cleared and that your accreditation is renewed. Renewal beyond the expiry date will be dependent upon the successful completion of a re-assessment, including clearance of any improvement actions within an agreed timescale.

Please find enclosed our estimate of the effort required to maintain your accreditation over the next four years. Any outstanding invoices for clearance of improvement actions will follow.

Your current scope of accreditation is shown on your schedule which is available from our website www.ukas.com. Please contact your Customer Liaison Officer in the event of any difficulty in downloading the schedule.

Our next visit is provisionally agreed during w/c 29 January 2024, and we will contact you nearer the time to confirm/make those arrangements.

If you want to extend your scope in the future, please contact us to discuss your application and the timeframes that you need to obtain accreditation because the extension to scope process can often take several months to complete. You are reminded that you are required to inform UKAS of any changes that may affect your accreditation or compliance with the accreditation requirements.

Yours sincerely,

Colin Smith
Assessment Manager
